

A modern, minimalist interior space with a concrete floor and ceiling. On the left, a white spiral staircase with a metal handrail winds upwards. In the center, a white hanging chair is suspended from the ceiling by a chain. To the right, three dark brown armchairs are arranged around a low, dark coffee table. The background features large windows and a white door. The overall aesthetic is clean and industrial.

## BUSINESS RIGENERATIVO

È in corso un **cambiamento culturale** epocale di cui siamo orgogliosi di essere parte. Uno dei principi fondamentali di tutte le B Corp è quello di adottare un business rigenerativo che si contrappone a quello estrattivo.

Rigenerare significa non solo diminuire l'impatto sulla natura e sull'ambiente che ci circonda, ma addirittura produrre effetti positivi, creando valore condiviso nella società e rigenerando la biosfera.

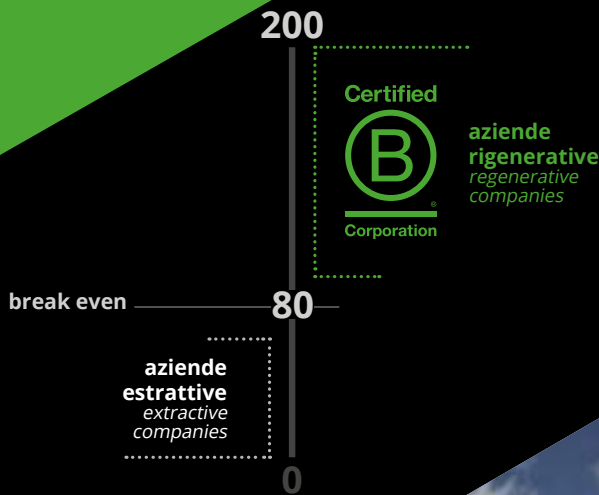

Diventano B Corp solo quelle aziende che misurano il loro impatto complessivo attraverso il Benefit Impact Assessment (BIA) superando il punteggio di 80 (in una scala da 0 a 200) ed entrando così in una élite di imprese **rigenerative**. Chi non supera questa soglia viene considerata **azienda estrattiva** ovvero per funzionare consuma risorse economiche, sociali e ambientali superiori di quanto sia in grado di generare come output.

## REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part. One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects, creating shared value in society and regenerating the biosphere**.

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative** companies. Anyone who does not exceed this threshold is considered an **extractive company** or, in order to function, they consume higher economic, social and environmental resources than they are able to generate as output.

## IL PUNTEGGIO DI FLORIM

Il punteggio conseguito da Florim Italia è di 98,1 punti e il consolidato, che comprende la consociata americana, è di 90,9 punti. Così Florim rientra tra le migliori B Corp al mondo.

Solo il 3% delle aziende riesce a superare l'iter di verifica imposto da **B Lab**, ente certificatore di origine americana che oggi opera a livello globale.

## FLORIM'S SCORE

Florim Italia score is 98.1 points and the consolidated, which includes the American subsidiary, is 90.9 points. Florim is now one of the best B Corps throughout the world.

Only 3% of companies manage to pass the verification process implemented by **B Lab**, the US certifying body that currently operates on a global scale.

La naturalità del granito Plima si unisce alla versatilità del gres porcellanato Florim. Dalle alture della Val Martello in Alto Adige nasce l'ispirazione di **Plimatech** dell'Architectural design. Modellata su una varietà di granito chiamato Plima, la collezione unisce ai vantaggi tecnico-progettuali del gres porcellanato l'aspetto naturale e la struttura di una pietra estremamente rara dalla particolare texture mossa con brillanti formazioni cristalline e screziature chiaro-scure. Plimatech/ presenta tre differenti colorazioni aggiungendo alla tipica tonalità grigio-azzurra del granito Plima altre due proposte cromatiche, una sui toni del bianco e l'altra su quelli del beige. L'eterogeneità estetica caratteristica della pietra naturale viene reinterpretata attraverso tre varianti grafiche con diversi gradi di stonizzazione.

The naturalness of Plima granite combines with the versatility of Florim porcelain stoneware. The inspiration for **Plimatech** Architectural design comes from high up in the Martell Valley of the Alto Adige region. Modeled on a variety of granite called Plima, the collection combines the technical and design advantages of porcelain stoneware, and the natural appearance and structure of an extremely rare stone featuring a distinctive wavy texture, with brilliant crystal formations and light-dark mottling. Plimatech/ comes in three different colors, adding two more schemes to the typical gray-blue shade of Plima granite, one in white, the other in beige. The aesthetic heterogeneity characteristic of natural stone is reinterpreted through three graphic variants with different degrees of tonal variation.

Le naturel du granit Plima se marie à la polyvalence du grès cérame Florim. **Plimatech** de l'Architectural design puise son inspiration dans les hauteurs du Val Martello dans le Haut-Adige. Façonnée à partir d'une variété de granit appelée Plima, la collection allie les avantages techniques et conceptuels du grès cérame à l'aspect naturel et à la structure d'une pierre extrêmement rare, à la texture particulière, ondulée et agrémentée de formations cristallines brillantes et de marbrures claires et sombres. Plimatech/ présente trois couleurs différentes : deux propositions chromatiques, l'une avec des tonalités blanches et l'autre avec des nuances beiges, s'ajoutent au ton caractéristique gris-bleu ciel du granit Plima. L'hétérogénéité esthétique qui distingue la pierre naturelle est réinterprétée à travers trois variantes graphiques offrant différents niveaux de stonalisation.

Die Natürlichkeit des Granits Plima verbindet sich mit der Vielseitigkeit des Feinsteinzeugs Florim. Aus den Höhen des Martelltals in Südtirol kommt die Inspiration für **Plimatech** Architectural Design. Die einer Granitart namens Plima nachempfundene Kollektion verbindet die technischen und gestalterischen Vorteile von Feinsteinzeug mit dem natürlichen Aussehen und der Struktur eines seltenen Gesteins, das sich durch eine unverwechselbare gewellte Textur mit glänzenden Kristallformationen und Hell-Dunkel-Sprenkeln auszeichnet. Plimatech/ ist in drei verschiedenen Farben erhältlich, wobei zum typischen graublauen Farbton des Plima-Granits zwei weitere Schattierungen hinzukommen, eine in Weiß- und eine in Beigetönen. Die für Naturstein charakteristische ästhetische Heterogenität wird durch drei grafische Varianten mit unterschiedlichen Schattierungsgraden neu interpretiert.

Le lastre ceramiche sono sottoposte a un trattamento di compattazione termica che assicura resistenza e durata nel tempo. Il bassissimo assorbimento d'acqua rende perciò il materiale ingelivo. Ciò può comportare ristagni d'acqua superficiali anche per materiale installato a regola d'arte. / Ceramic tiles undergo a compacting thermal treatment that ensures resistance and durability. The low level of water absorption makes the slabs frost resistant. This could result in superficial water stagnations even if materials are installed in a workmanlike manner. / Les carreaux de céramique subissent un traitement thermique de compactage qui assure résistance et durabilité. Le bas niveau d'absorption d'eau rend les dalles résistant au gel. Il pourrait en résulter des stagnations d'eau superficielles, même si les dalles ont été installées dans les règles de l'art. / Die Keramikplatten werden einer thermischen Verdichtung unterzogen, welche die Widerstandsfähigkeit und Langlebigkeit sichert. Die extrem niedrige Wasseraufnahme macht das Material frostsicher.
