Micro.

ITA **Micro.** è un progetto.

Un progetto aperto e in continuo sviluppo che ricerca l'essenza, il minimo comun denominatore. Cerchiamo l'ergonomia, la sintesi, quella piccola cosa che può cambiare davvero la nostra vita in meglio. Hai presente? Un materiale più leggero e resistente, un rivestimento modellabile, non mettendo mai da parte la bellezza, la comodità e l'uso che ne farai. Collaboriamo con i migliori designer al mondo per portare avanti questo progetto perché ci piace sognare un futuro prossimo dove tutto quello che abbiamo intorno sia così.

ENG **Micro.** is an open project, a work in progress.

We search the essence, the lowest common denominator. We search ergonomics, synthesis, that little thing can really change our lives for a better living. Do you know what we mean? A more lightweight and resistant material, a moldable coat for example. Beauty, comfort and the use you're going to make of our products is our primary target. We work with the best designers in the world to carry out this project. We dream a future where all you have around is better than ever.

3D Forms

ITA 3D Forms raggruppa le nuove collezioni di piastrelle tridimensionali di Micro. Le prime due proposte sono “Cross” e “Fluted”, che permettono di giocare con la direzione della posa per creare una moltitudine di patterns in una ripetizione continua o in infinite combinazioni, consentendo di esprimersi con flessibilità e individualità. Una raccolta di proposte che celebra il movimento, i volumi e i colori, declinata nelle 13 tonalità cromatiche del progetto.

ENG 3D Forms brings together Micro.'s new three-dimensional tile collections. The first two proposals are ‘Cross’ and ‘Fluted’, which allow you to play with the direction of laying to create a multitude of patterns in a continuous repetition or infinite combinations, allowing for flexibility and individuality. A collection of designs celebrating movement, volume and colour, declined in the 13 colour shades of the project.

ITA **Cross:** una collezione di quadrati 10x10 in pasta bianca nei 13 colori Micro. che porta sulla superficie la contaminazione tridimensionale, trasformando la forma più tradizionale in un'esperienza sensoriale dove gli spessori diversi, i bordi e le ombre creano giochi geometrici in rilievo con combinazioni cromatiche quasi infinite.

ENG **Cross:** a collection of 10x10 white-body squares in the 13 Micro. colours that brings three-dimensional contamination to the surface, transforming the most traditional shape into a sensorial experience where different thicknesses, edges and shadows create geometric relief effects with almost infinite color combinations.

kerakoll

COLLABORAZIONE TECNICA CON KERAKOLL
In collaborazione con Kerakoll, Società Benefit certificata B Corp e partner del progetto B Local Modena, sono stati individuati stucchi resina-cemento Fugabella Color abbinati cromaticamente alle nostre collezioni.
Queste combinazioni:
• migliorano l'effetto finale
• riducono il contrasto visivo tra mosaico e fuga
• rispettano la natura artigianale del prodotto

TECHNICAL PARTNERSHIP WITH KERAKOLL
In collaboration with Kerakoll, a Benefit Company certified B Corp and partner of the B Local Modena project, resin-cement based grouts Fugabella Color have been identified to match our collections chromatically.

These combinations:
• enhance the final aesthetic effect
• reduce visual contrast between tile and joint
• respect the artisanal nature of the product
